Contents of Volume 13

PERCEPTION AND PERFORMANCE

VISION

- The perception of rotation with an oscillating trapezoid by R. Zenhausern, 79
- Visual search and memory under degraded and masked presentation by L. Standing and R. N. Haber, 81
- Clarity and recognition of masked and degraded stimuli by R. N. Haber and L. Standing, 83
- Transfer effects in adaptation to prismatic displacement by E. van Laer, 85
- Assessments of temporal discrimination in vision by D. N. Robinson, 247
- Expected scores in the rod-and-frame test: Fuel for the Immergluck-Pressey fire by G. M. Vaught, 248

LOWER SENSES

- Effect of preceding and concurrent stimulus conditions on the pleasantness of auditory stimulus sequences by K. Wender, P. B. Baltes, and G. Labouvie, 73
- The effect of set upon length estimation in active touch perception by J. E. Roeckelein, 193
- Simplicity as a principle in tactual form perception by J. E. Roeckelein, 195
- The effect of auditory hallucinations on loudness of verbal report by C. G. Stewart, 197
- Stability of auditory perception of words and pure tones under repetitive stimulation in neutral and suggestibility conditions by B. Fenelon and J. A. Blayden, 285

PERFORMANCE

- Factors affecting children's alternation and choice behaviors by S. Manley and F. D. Miller, 65
- Effects of lag on cued alternation by E. S. Gordon and M. Goldstein, 67
- Pupillary changes and reaction time with varied stimulus uncertainty by J. L. Bradshaw, 69
- Perceptual perimeters and generalized drive by R. L. Solso, J. E. Johnson, and G. C. Schatz, 71
- The observing response is not due to biased expectancies by T. S. Wallsten and J. Catlin, 77
- Information available from brief visual presentations using two types of report by C. M. Lawrence and J. Ross, 199
- Subjective probability revision in twelve simultaneous sequences by S. G. Lipkin and D. D. Willis, 201
- Differential effects of two types of aversive arousal on discriminability by J. Bieri and B. Meyers, 203
- Stable hours and varied work as aids to efficiency by R. T. Wilkinson and R. S. Edwards, 205
- Preference for complexity as a function of schematic orderliness and redundancy by S. H. Lane, 209
- The accuracy of reproducing target positions under various tensions by G. E. Stelmach, 287
- Stimulus intensity and familiarization effects on simple RT performance in children by F. D. Miller and G. H. Moffat, 289
- Temporal discrimination as a function of total presentation time by D. H. Thor and H. H. Spitz, 291
- Latency and magnitude of the pupillary response during an imagery task by H. M. Simpson, F. M. Molloy, S. M. Hale, and M. H. Climan, 293
- Limitations of the repetition effect revealed by partial report by L. Standing and F. DaPolito, 297
- The relation of correct and error responses in a serial choice reaction task by D. Hale, 299

DETECTION

- Effect of signal satiation on signal detection in auditory vigilance by J. P. Das and P. Pradhan, 211
- Tactual size perception with the method of magnitude estimation by J. E. Roeckelein, 295
- Effects of information feedback and reference tones on signal detection by A. Nash and R. Adamson, 301
- Magnitude estimation of perceived distance over various distance ranges by R. J. Vincent, B. R. Brown, R. P. Markley, and M. D. Arnoult, 303
- Selective attention: The site of the filter in the identification of language by J. M. Wilding and G. Underwood, 305
- Adaptation-level theory: Absolute or relative anchor effectiveness? by V. Sarris, 307

HUMAN LEARNING AND THINKING

CONDITIONING

- Instrumental escape conditioning and extinction as a function of UCS intensity and instructions by J. J. Porter, J. M. Dawley, and J. H. Porter, 89
- Effects of operant conditioning on frequency of polysyllabic words and speed of response by A. R. Hakstian and C. A. Brickner, 207
- Allowing for the orienting response in GSR conditioning by H. A. Lando and R. H. Tanck, 213

REINFORCEMENT

- A postcontingency test of the effectiveness of reinforcement by B. H. Wasik, 87
- Resistance to extinction and continuous punishment in humans as a function of partial reward and partial punishment training by J. L. Deur and R. D. Parke, 91
- Operant GSR conditioning using a within-S design by J. R. Milstead, P. E. Baer, and M. J. Fuhrer, 215
- Response measure effects in children as a function of type and schedule of reward by P. Watson, 217
- Patterns of event runs in probability learning by M. R. Jones and J. R. Erickson, 317
- Some evidence supporting Nuttin's explanation of spread of effect by T. B. Leonard, III, and A. M. Raffetto, 319
- Secondary reinforcers as discriminative stimuli in choice performance by J. H. Gill and J. Fox, 323

DISCRIMINATION LEARNING

- The use of sexually arousing slides as unconditioned stimuli for the GSR in a discrimination paradigm by S. J. Dean, R. B. Martin and D. L. Streiner, 99
- Line-orientation generalization in children and adults as a function of the number of training trials by J. S. Landau, 219
- The effect of stimulus characteristics on immediate and delayed transposition by K. A. Blick and J. I. McClurkin, III, 233
- Overtraining and stimulus change in extra-dimensional shifts by J. L. Wolff and J. T. Guthrie, 309

VERBAL LEARNING

- Pair congruence and interpair interference in paired-associate learning by M. Clements and T. Y. Arbuckle, 93
- Order preference in serial learning by R. M. Gardner, G. W. Nappe, and W. P. Wallace, 95
- Verbal discrimination learning as a function of experimental

- frequency by J. Berkowitz, 97
 Cue utilization in serial learning by L. G. Lippman, 101
 Incidental learning and the timing of arousal by D. E. Berlyne and S. T. Carey, 103
 The effect of anxiety on cue selection in the A-Br paradigm by R. L. Solso, 105
 A methodological note on direct tests of the effectiveness of positional cues in serial learning by J. R. Heslip, 221
 Response prompting: The practice time variable by J. B. Sidowski, 311
 Common label pretraining: Interference and/or facilitation? by M. E. Marshall, 313
 Effect of number and relatedness of stimulus-term components on paired-associate learning by J. Liffick and K. L. Leicht, 315
 Stimulus and response concreteness, imagery, and temporal factors in paired-associate learning by A. D. Yarmey, B. J. O'Neill, and D. de Ryk, 321
 The influence of distinctiveness on stimulus selection by K. A. Jacobus and S. D. Leonard, 339

MEMORY

- Some observations on memory artifice by J. Ross and K. A. Lawrence, 107
 Language and memory: Redintegrative memory for shapes facilitated by naming by J. L. Santa and H. B. Ranken, 109
 The generality of free-recall: II. Performance as a function of type of material by D. S. Gorfein, C. Blair, and C. Rowland, 111
 Learning strategy, list abstractness, and free-recall learning by G. Wood and R. H. Terborg, 113
 PI in STM resulting from the semantic similarity of items by A. E. Whimbey and V. Fischhof, 127
 Postural set as a factor in short-term motor memory by R. A. Schmidt and G. E. Stelmach, 223
 Acoustic similarity and RI in PAL by H. C. A. Dale and A. McGlaughlin, 225
 Accuracy of subjective judgments of information in long-term memory by F. DaPolito, H. Guttenplan, and H. Steinitz, 227
 Organized recall: Individual functions by G. Mandler, 235
 Reconstitutive memory in kindergarten children by N. W. Dahlem, 331
 Retention in paired-associate learning related to extroversion and neuroticism by R. J. McLaughlin, 333

VERBAL PROCESSES

- Grammatical category as mediator by Z. W. Pylyshyn and A. Feldmar, 115
 Associative strength over time of first and second list responses in color context by J. M. Randel and C. Havrda, 117
 Mediation vs pseudomediation in kindergarten children by D. H. Kausler and J. W. Deichmann, 119
 Meaningfulness of Underwood and Richardson's (1956a) sense impression descriptive adjectives by D. M. Roberts, 121

PROBLEM SOLVING

- The dependency of intermediate size problem responses upon sets in human Ss by K. E. Baker and J. Ulness, 75
 Anagram solving: A function of the frequency of vowel-consonant pattern by R. Schwartz, 229
 Concept learning in mentally retarded Ss using three types of verbal labels by W. E. Stephens and M. Komechak, 231
 Some direct tests of concept identification models by C. E. Kenoyer and J. L. Phillips, 237
 Facilitation of schematic concept formation as a function of two within-schema pretraining modes by W. C. Rankin and S. H. Evans, 325
 Information load, time spent, and risk taking in complex decision making by S. Streufert and S. C. Streufert, 327

- A direct investigation of hypothesis-making behavior in concept identification by R. Falmagne, 335

SOCIAL PROCESSES

- Race and sex of adolescents and cooperation in a mixed-motive game by S. A. Sibley, S. K. Senn, and A. Epanchin, 123
 The effects of threat and attraction on interpersonal bargaining by L. Tornatzky and P. J. Geiwitz, 125
 The experimenter bias effect: A failure to replicate by T. Jacob, 239
 Aversive stimulation and the laughter response by D. C. Main and R. J. Schillace, 241
 Effects of consistent or deviant modeling cues on the adoption of a self-imposed standard by J. H. Hill and R. M. Liebert, 243
 The effects of information redundancy on evaluations of social stimuli by R. S. Wyer, Jr., 245
 The influence of an advantaged third person on collaboration in a prisoner's dilemma game by T. L. Radinsky and D. G. Myers, 329
 Eye-contact and the recall of material involving competitive and noncompetitive associations by G. Stanley and D. S. Martin, 337
 Experimenter bias in the prisoner's dilemma game by P. S. Gallo, Jr., and I. A. Dale, 340

PHYSIOLOGICAL PSYCHOLOGY

- Expectancy waves and other complex cerebral events in dyslexic and normal subjects by B. Fenelon, 253

BRAIN LESIONS

- Effect of frontal ablations upon an acquired temporal discrimination by M. E. Meyer, C. A. Gray, and C. A. Blick, 129
 Hypothalamic lesions and food/water intake in the Barbary dove by P. Wright, 133
 The effects of septal lesions on the learning and reversal of a kinesthetic discrimination by P. L. Gittelson and P. J. Donovan, 137

ELECTROCONVULSIVE SHOCK

- Evaluation of the one-trial passive avoidance task as a tool for studying ECS-produced amnesia by J. P. J. Pinel, 131
 The sleep-dream cycle and convulsion threshold by E. Hartmann, J. Marcus, and A. Leinoff, 141

BRAIN STIMULATION

- Response rate for food and water in the rat as a function of noncontingent, reinforcing septal stimulation by P. D. Mabry and D. F. Peeler, 51
 Fixed-ratio schedules using brain stimulation as a reinforcer by S. I. Cohen and R. W. McIntire, 57
 Electrical stimulation of the hippocampus and perseveration in an exploratory maze by R. N. Leaton, 59
 The effect of intertrial interval on running performance for ESB by J. Panksepp, R. Gendelman, and J. Trowill, 135

DRUG AND CHEMICAL EFFECTS

- Chemical variation in brain loci during shock avoidance by J. Gaito, J. Mottin, and J. H. Davison, 41
 Extinction reversal by Scopolamine by W. F. Herblin, 43
 Magnesium pemoline: Effects on learning and retention in 250 day old rats by G. R. Francois, 61
 Effects of repeated administrations of atropine on two multiple schedules by R. D. Willis and L. M. Windland, 139
 Magnesium pemoline: Effect on food reinforced discrimination performance in rats by K. W. Scholz, D. F. Peeler, and

O. B. Ward, Jr., 145

The effect of chlorpromazine on survival motivated escape response by M. Ball and J. E. Harrigan, 147

Cortical application of ribonuclease and amnesia for a visual discrimination by C. W. Hendrickson and R. J. Kimble, 149

Retrograde amnesia: Role of temperature, dose, and duration of amnesic agent by A. Cherkin, 255

Effects of magnesium pemoline on shock avoidance conditioning and on various chemical measures by J. Gaito, J. H. Davison, and J. Mottin, 257

Chemical variation in the ventral hippocampus and other brain sites during conditioned avoidance by J. Gaito, J. Mottin, and J. H. Davison, 259

RADIATION EFFECTS

Sex differences in the activity wheel as a function of fetal age at irradiation by J. C. Martin, 249

Saccharin preference and aversion as a function of irradiation and supplier in the albino rat by J. C. Martin, 251

ANIMAL PSYCHOLOGY

Evidence for color vision in the prairie dog (*Cynomys ludovicianus*) by R. E. Cain and R. H. Carlson, 185

EMOTIONALITY AND EXPLORATION

Open-field behavior in mice: Genetic analysis of repeated measures by J. P. Hegmann and J. C. DeFries, 27

The consistency of weanling and adult rats by D. L. King, 29

Open-field activity and exploratory behavior by C. D. Corman and J. N. Shafer, 55

Effects of two types of feeding on the weight and open-field behavior of rats by D. Lester, 63

Exploratory behavior: The inadequacy of activity measures by M. H. Sheldon (Vol. 11, p. 38)

Reply to Sheldon by D. Lester, 64

Reply to Dr. Lester by M. H. Sheldon, 284

Effects of postweaning rearing conditions on emotionality and social-seeking behavior in the rat by D. Singh and W. S. Maki, Jr., 163

Preference for familiar stimulation independent of fear of novelty by A. B. Sheldon, 173

MOTIVATION

Water drinking and air drinking: Some physiological determinants by W. J. Carr, B. H. Levin, and M. L. Dissinger, 23

Sexual satiety in rats: Effects of prolonged post-ejaculatory intervals by D. W. Dewsbury and S. K. Bolce, 25

Individual differences in eating and drinking in the rat by J. Allison, 31

Sucrose incentive shifts in the Skinner box with thirsty rats by A. J. Rosen and M. Jacobs, 175

Body temperature change in the snapping turtle (*Chelydra serpentina*) by R. L. Gossette and A. Hombach, 177

The effects of a controlled eating and drinking history on the development of schedule-induced polydipsia by N. Hymowitz and C. Koronakos, 261

Color preference shift in hungry and thirsty pigeons by J. D. Delius, 273

CONDITIONING

Sensory preconditioning of cats in a shuttle box avoidance situation by J. L. Davis and R. F. Thompson, 37

The effects of ITI interpolated stimuli and CS intensity on classical conditioning of the nictitating membrane response of the rabbit by W. R. Salafia and J. D. Papsdorf, 187

Habituation in the polychaete *Hesperonoe adventor* by J. A. Dyal and K. Hetherington, 263

DISCRIMINATION LEARNING

Cue selection in discriminative operant conditioning by B. R. Hergenhahn and D. G. Gottlieb, 33

Discrimination learning in the South American tapir (*Tapirella*) by G. McCain, 35

Reversal and nonreversal learning in the goldfish by E. R. Behrend, L. Jennings, and M. E. Bitterman, 179

Imprinting: Transfer of the following response after initial attachment by R. H. Porter and L. J. Stettner, 181

Effect of variation in motivational level during brightness SDR training among squirrel monkeys by R. Gossette and P. Slonim, 13

Discrimination learning and extinction in the black rhinoceros (*Diceros bicornis*) by G. McCain and G. Stepter, 189

Successive discrimination reversal performance as a function of level of drive and incentive by J. M. Feldman, 265

Learning with one and two cues by N. S. Sutherland and L. Andelman (Vol. 7, pp. 107-108)

Reply to Sutherland and Andelman by H. Babb, 283

AVOIDANCE AND PUNISHMENT

Dual effects of a second-order conditioned stimulus: Excitation and inhibition by D. Herendeen and D. C. Anderson, 15

Passive avoidance: A variety of fear conditioning? by R. J. Blanchard and D. C. Blanchard, 17

Escape and avoidance responses to a fear eliciting situation by R. J. Blanchard and D. C. Blanchard, 19

Escapable-inescapable shock and body weight loss by D. M. Ragusa, K. M. Shemberg, and W. Rasbury, 45

The cue in discriminated escape conditioning as a secondary positive reinforcer by D. G. Davenport and J. J. Lerner, 47

Maintenance of avoidance during differential shock and nonshock confinement by J. H. Reynierse, R. Rizley, and M. J. Scavio, Jr., 49

Avoidance of a warning signal by F. A. Logan and R. Boice, 53

Effects of fear conditioning on the subsequent acquisition of an avoidance response by B. M. Slotnick, 159

Conditioned suppression of licking as a function of shock intensity by J. P. James and W. W. Mostoway, 161

Control of avoidance by a discriminative stimulus by S. G. Lynn and J. A. Nevin, 171

Conditioned suppression increases following training in pigeons by J. S. McMichael, 267

CS-US interval and suppression of unconditioned vocalization to shock: Associative or non-associative by P. Badia, R. H. Defran, and P. Lewis, 269

Effects of an extinguished fear stimulus on avoidance behavior by D. K. Kamano, 271

Two methods of increasing response rate in free-operant avoidance conditioning by W. A. Hayes and R. C. MacKinnon, 275

REINFORCEMENT

Conditioned reinforcement: The effects of variation of stimulus duration by M. L. Cheal and R. L. Spratt, 1

"Time-out from positive reinforcement" as the UCS in a CER paradigm with rats by H. Leitenberg, G. J. Bertsch, and R. C. Coughlin, Jr., 3

Acquisition and extinction with rewarded goal box placements interpolated among training trials by A. J. North and D. F. Carl, 7

The effects of terminal food and water deprivation on the reinforcing properties of light-onset by J. T. Tapp, D. M. Mathewson, and P. Jarrett, 9

Running for stimulus change by R. B. May, 11

Third-order fixed-ratio schedules of reinforcement by G. Bigelow and T. Thompson, 13

Negative contrast after prolonged discrimination maintenance by G. S. Reynolds and A. J. Limpo (Vol. 10, pp. 323-324)

- Comment on Reynolds and Limpo by I. L. Beale and A. S. Winton, 21
- Reply to Beale and Winton by G. S. Reynolds, 22
- Reinforcement and free feeding as antecedent conditions in a discrete trial discrimination by T. A. McCullough, 155
- The preference of rats for a more difficult task by H. Friedman, R. M. Tarpy, and P. Komelski, 157
- Facilitative effects of reward increase: An apparent "elation effect" by P. A. Meyer and J. H. McHose, 165
- Shaping, auto-shaping and observational learning with rats by R. W. Powell, D. Saunders, and W. Thompson, 167
- Intertrial reinforcement: A test of several hypotheses by E. J. Capaldi and N. B. Wilson, 169
- Spatial probability learning in the Virginia opossum by J. H. Doolittle and J. Weimer, 191
- Joint effects of magnitude of immediate reward and magnitude of delayed reward on acquisition and extinction by E. J. Capaldi, R. C. Godbout, and B. Downs, 277
- A comparison of two delay of reward procedures, pre-reinforcement delay vs post-reinforcement delay by E. J. Capaldi, R. C. Godbout, and C. Ksir, 279
- Secondary reinforcement effects of placement procedures in a runway situation by A. J. North, 281

EXTINCTION

- A reinterpretation of extinction in discriminated avoidance by D. G. Davenport and R. D. Olson, 5
- Response decrement as a function of extinction or shift in reinforcement schedule by J. E. Spivey, D. T. Hess, and D. Black, 143
- The partial reinforcement effect after minimal acquisition: Single pellet reward by G. McCain, 151
- Effect of several reward exposure procedures on the small trial PRE by R. C. Godbout, D. R. Ziff, and E. J. Capaldi, 153
- Resistance to extinction as a function of nonresponse incentive shift by D. G. Davenport and J. H. Mueller (Vol. 10, pp. 243-244)
- Erratum, 188

SOCIAL BEHAVIOR

- Dominance behavior in socially isolated rats by I. L. Ward and A. A. Gerall, 39
- Sex and dominance behavior in the rat by E. T. Uyeno and M. White, 192
